

## Specialty Pharmacy Drug Program

July 1, 2020

The Specialty Pharmacy Program offers you the choice of two specialty care pharmacies to help manage and access your specialty drugs: the Baylor Scott & White Specialty Care Team pharmacy or Optum® Specialty Pharmacy.

If you are taking one of the specialty medications listed in this document and obtain it through a pharmacy, you must contact either Baylor Scott & White Specialty Care Team pharmacy or Optum Specialty Pharmacy to fill your prescription.

To start using the **Baylor Scott & White Specialty Care Team service**, call **1-844-288-3179**, or stop by in person, located at 425 University Blvd. in Round Rock, TX.

To start using **Optum Specialty Pharmacy**, please call **1-855-427-4682** or visit **specialty.optumrx.com**.

## **Characteristics of specialty medications**

Specialty medications are used to give care for rare and complex conditions. They are often drugs you take by mouth or inject. These medications require use of a preferred specialty pharmacy for the following reasons:

### **High-priced**

- Can cost more than \$1,000/30-day supply.

### **Complex**

- Drug imitates compounds found in the body.
- Part of a specialty drug class.

### **High-touch**

- Special shipping or handling such as refrigeration.
- Needs a doctor or pharmacist to measure how well it works for you.
- Special steps to follow as you take.
